

### City of Atlanta Brownfields Assessment Program

The City of Atlanta has established a voluntary assistance program to provide no-cost Phase I and Phase II Environmental Site Assessments (ESA) for select brownfields throughout the city. This program was established thanks to a grant from the U.S. Environmental Protection Agency's Brownfields Program and will end on September 30, 2016. Previous grant programs have enabled the city to provide ESAs for sites such as the Beltline Railroad Corridor and Capital Greenway along Memorial Drive.

Candidate sites under the current assessment program are those that:

1. Are considered brownfields.
2. Are located in priority areas of the city.
3. Will be redeveloped in the near-term.
4. Will serve as catalysts for other redevelopment efforts.

Nominations will be accepted on a rolling basis throughout the year and will be considered on a first-come-first-served basis.

### What's a brownfield?

A brownfield is a real property whose expansion, redevelopment, or reuse may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Examples include former industrial sites, gas stations, dry cleaning establishments, and textile plants.
