THE ATLANTA TREE STUDIES AND RESEARCH

- **Baseline Tree Canopy Analysis** (*Initiated by the City under contract with GA Tech Center for GIS based upon leaf-on satellite imagery purchased by the City in 2008). The City is in the process of obtaining an updated analysis of tree canopy based on satellite data purchased for 2014).*
 - Executive Summary of **Baseline Tree Canopy Study**. [Click here](#) for details.
 - Report **Baseline Tree Canopy Study** . [Click here](#) for details.
- **Downtown Tree Inventory** (The first large public tree inventory in the City, including 9004 data points on public street right-of-ways and parks downtown and in surrounding areas) [Click here](#) for details.
