PART VI: ECONOMIC DEVELOPMENT PROGRAMS/TOOLS.....	19

Prepared by:

The City of Atlanta Bureau of Planning and the Summerhill Community

February, 2006

Preface

The Summerhill Urban Redevelopment Plan was adopted by the Atlanta City Council in October, 1993. In December, 2004, Mayor Shirley Franklin's New Century Economic Development Plan was released and six Economic Development Priority (EDP) areas were identified as focus areas for economic development. The Summerhill community was one of the focus neighborhoods identified in the Mayor's plan. Since the Plan for Summerhill is thirteen years old, the Bureau of Planning determined to update the Plan's land use, zoning, and identify development opportunity sites in the neighborhood based on current conditions.

In this context, the City of Atlanta Bureau of Planning worked with the Summerhill neighborhood for five months to bring the land use, zoning, and possible emerging development opportunities. This Urban Redevelopment Plan Update reflects and summarizes how the Summerhill neighborhood wishes to move the community forward with the revised changes as reflected in this document.

Part I: Goals and Objectives

This plan update bears the similar goals set up in the 1993 Urban Redevelopment Plan with emphasis on the following objectives:

- Enhance a diversified urban environment where people can live, work, meet, and recreate.
- Encourage a compatible mixture of residential, commercial, cultural, and recreational uses.
- Improve the visual aesthetics of the Summerhill neighborhood and City streetscapes.
- Promote economic development through marketing and utilizing available tools.

Part II: Development Opportunities

One of the main issues that the 1993 Summerhill Plan targeted at is tax delinquent properties. With the guide of the plan and under the influence of 1996 Olympics, most of the delinquent properties have been assembled and/or redeveloped into new residences. The area changed most is the single family and multifamily residential area north of Georgia Avenue. In recent years, the southern residential area (south of Georgia Avenue) also sees a lot of changes in terms of single-family redevelopment or infill. In contrast, the dilapidated commercial along Georgia Avenue, and the surface parking lot and vacant land along the east side of Hank Aaron Drive are lagging in change of appearance. Actually, this area is identified by the community as an area with development potential and calls for recommendations to both regulate and promote development in a context sensitive manner.

Georgia Avenue from Hank Aaron Drive to Martin Street

Medium Density Mixed-use Area:

-- From Fraser Street to Martin Street

The area along Georgia Avenue is ripe for medium density mix-use development. The opportunity is to develop residential with ground floor retail and services in the form of six stories (76 feet) buildings, which can address the increasing needs of urban living, and at the same time respect the existing character of Summerhill neighborhood. The scale and density

Figure 1 Georgia Avenue Streetscape Before and After

of development will decrease when approaching both north and south from Georgia Avenue toward the single-family districts. Figure 2 illustrates the development concept.

Figure 2 Georgia Avenue Development Concept

High Density Mixed-use Area:

-- From Hank Aaron Drive to Fraser Street

The block bounded by Hank Aaron Drive, Georgia Avenue, Fraser Street, and Bass Street is at the key location which serves as the Gateway to the neighborhood. The idea is to control the height within 6 stories along Georgia Avenue while allowing development to go up to similar heights as the stadium along Hank Aaron Drive. The development will include residential with ground floor commercial/retail uses. Parking will be incorporated in all development and should not be visible from the main streets. A landmark element or a gateway feature should be considered in terms of architectural change that is celebratory to the corner of Hank Aaron Drive and Georgia Avenue, and take into consideration the corner of the stadium across the street (Figure 2).

Hank Aaron Dr. from Bass Street to Ormond Street

High Density Mixed-use Area:

-- Whole block from Bass Street to Bill Lucas Drive and Front parcels (FanPlex) from Bill Lucas Drive to Little Street.

This area basically bares the same development concept as the block north of it, which will be high-density mixed residential/commercial use that is no higher than the stadium. Since the east side of the block between Bass Street and Bill Lucas Drive adjoins the single family district along Fraser Street, height of structures on Fraser side is to be limited to 40 feet within a certain distance.

Medium Density Mixed-use Area:

-- West half of block from Little Street to Ormond Street facing Hank Aaron Drive.

This half block will be used for medium density mixed-use or residential development with maximum height of no more than 76 feet. Development at this scale will serve as a transformation between the 100 feet building to the north and the 3-story building to the south.

Medium Density Residential Area:

-- East half of block from Little Street to Ormond Street facing Fraser Street

This area will serve as a buffer between the mixed-use development to the west and the single family area to the east. The opportunity is to develop medium density (2-4 stories) Townhomes, condominiums, or apartments at this site. The building height along Fraser Street will be strictly limited to 40 feet so as to address the single-family houses on the other side of the street.

Figure 3 illustrates the development concept for the entire corridor from Georgia Avenue to Ormond Street.

Figure 3 Hank Aaron Drive Development Concept

Part III: Land Use Change Recommendations

An existing land use survey in Summerhill was conducted at the early stage of this update, the result of which illustrates the current land use conditions in Summerhill (Figure 4). As a long term policy guide, the CDP land use provides directions for development and redevelopment and sets the stage for zoning changes. In the Summerhill neighborhood, the current CDP 15-year land use is examined based on the development opportunities identified. On one hand, land use change recommendations are made to set the stage for future development. For example, area along Georgia Avenue and Hank Aaron Drive are currently in Low density Commercial land use category, it is recommended to be changed to mixed-use to set stage for new development. On the other hand, changes are proposed for where the current land use is not consistent with the current zoning. For example, all the Phoenix Parks have residential land use designation, it is recommended to change their land use to Open Space so as to preserve these parks. Figure 5 shows the CDP 15-year land use, and Figure 6 shows the proposed land use changes.

Figure 5 CDP 15-year Land Use

Figure 6 Land Use Change Recommendations

Part IV: Zoning Change Recommendations

The current zoning for the area with development potential basically falls into either low density commercial or single-family residential zoning categories (see Figure 7 existing zoning map). This is limiting the potential of the land and lack quality design control over development. With the emerging opportunities and needs, applying Quality of Life zoning districts (established in 2002) to the area with opportunities will help facilitate and control development in a desirable way. For the single family residential area, design standards are recommended to make sure new development is consistent with the existing neighborhood character. The proposed zoning changes are contained in 14 distinct areas as shown in Figure 8 with change details in Table 2. The following describes the general rezoning recommendations. For details on the rezoning, please refer to Appendix – Summerhill Draft Rezoning Legislation.

Low Density Mixed Use Designations

Two low density mixed use designation areas are proposed based on existing zoning and neighborhood character. One is the area a half block south of Glenn Street (Area 2). This area is in between the medium density mixed uses along Georgia Avenue and the single family residential area north of Glenn Street. The recommendation is to change the current C-1 zoning to MRC-1 zoning. The height of the building in this new zoning is limited to 35 feet due to its close proximity to the single family residential area.

Another area proposed for MRC-1 zoning is the half block along the east side of Hank Drive from Little Street to Ormond Street (Area 8 and 9). Having a similar concept as the one above, this area serves as a transition area both from north to south and west to east. MRC-1 zoning will allow maximum 4 stories building here.

For both areas, condition on uses is added as part of the new zoning to regulate future uses in any new development. Based on the consideration on community aesthetics, building materials are specified as part of the conditions as well. The conditions make the zoning MRC-1-C.

Medium to High Density Mixed Use Designations

The medium density mixed use area is along Georgia Avenue from Fraser Street to Martin Street (Area 3, 4, and 5), as described in the development opportunities section above. It is recommended to change the zoning from C-1 and R-4B to MRC-3. To regulate uses and control urban design features of new development, conditions are added to regulate building heights, uses, and building materials. Basically, the height of the building along Georgia Avenue is limited to no more than 76 feet; for the boundaries adjoining single family or low density mixed use areas, either the transitional height plane rule applies or height is restricted to 40 feet within a certain distance to the sensitive areas. These conditions make the new zoning MRC-3-C.

Figure 7 Existing Zoning

One of the high density mixed use areas include the current Stadium and its parking lots to the north (Area 1). The current zoning is C-3, and it is recommended to change to MRC-3 in order to ensure that future development meet the urban design standards required by the Quality of Life zoning. Similar conditions on uses are recommended to be consistent with surrounding areas. One difference is that park-for hire parking decks are not prohibited as recommended elsewhere, because the intention is to encourage the Stadium to convert some of the surface parking lots into parking decks with active uses on the ground floor.

For the area south of Georgia Avenue between Hank Aaron Drive and Fraser Street (Area 6, 10, 11, and 12), it is recommended to change the current C-1, C-3-C, and R-4B zoning into MRC-3-C. Based on the height of the Stadium, the maximum building height is limited to 104 feet along Hank Aaron Drive. To keep a consistency along Georgia Avenue, the building height is limited to 76 feet within 30 feet of the buildable area along Georgia Avenue from Hank Aaron to Fraser. At the area where this new district adjoining the single family district to the east, height of buildings is limited to 40 feet and 76 feet respectively based on distance from the sensitive area. Same conditions on uses and materials apply to this zoning district as part of the conditions as well.

Multi-family Residential Designations

As described in the development opportunities section, the two half blocks along the west side of Fraser Street from Bill Lucas Drive to Ormond Street will serve as a good buffer by having low density multi-family development. The recommendation is to change the zoning from R-4B to MR-3. To address the single family homes on the east side of Fraser Street, height limitation of 40 feet is added to the side adjoining the sensitive area. The final zoning is MR-3-C with the ‘C’ indicates the height condition.

Single-family Residential Designations

As a traditional neighborhood, Summerhill has some very narrow lots. Under current R-4B zoning, some of the lots have been developed with very narrow houses on it, which are not consistent with the overall character of the single family residential area in the neighborhood. To avoid more narrow houses, it is recommended to add a condition requiring minimum house width in the R-4B zoning districts in this neighborhood. An analysis of exiting lot configuration in the neighborhood shows the following results.

Table 1

Lot Width	Number	%
Less than 30 feet	84	13.2%
Less than 30 feet and has potential to be developed	50	7.8%
Equal or Greater than 30 feet	554	86.8
Total Lots	635	100%

Note: legally a house of 20 feet can be built on a 30-foot wide lot.

Based on the analysis and neighborhood preference, 30 feet wide lot is set as a standard sized lot for the R-4B zoning district in this neighborhood. If a house were to be less than 20-feet

wide or if the lot were less than 30 feet wide and the house were to be built at 20 feet wide, the property owner would need side yard setback variances. However, this will not be burdensome to property owners because about 40% of the narrow lots (less than 30 feet) have already been developed.

Another intention in the single-family and low-density residential district is to ensure quality design of houses, which means the new houses need to be built in a manner that is consistent with the traditional characteristics of the neighborhood. For this purpose, conditions are added to regulate front façade fenestration and steps, principle entrances, driveways, and roofs. This makes the proposed zoning R-4B-C.

Table 2 Changes by Addresses

Area	Addresses	Zoning From	Zoning To
1	24, 445,450, 504, 727,755,777 Hank Aaron Blvd., 28 and 617 Ralph D. Abernathy Blvd., 711, 760, 818, 827 Washington Street.	C-3	MRC-3-C ¹

Part VI: Economic Development Programs/Tools

As part of the Stadium Neighborhoods Economic Development Priority area, the marketing and implementation of this Plan will take place after the update is adopted by the Atlanta City Council. Atlanta Development Authority (ADA), as the City's economic development arm, will in charge of the economic development in this area. There are opportunities for business development and job creation along Georgia Avenue. The Stadium and Atlanta Braves could be a good partner with the neighborhood in terms of economic development.

Several programs/tools are available from the City, State, and Federal levels to help economic development in the Summerhill neighborhood. Table 6 and 7 summarize the tools. ADA has conducted a comparative analysis on using Tax Allocation District (TAD) and Urban

¹³ including other commercial recreation establishments with primary activities conducted within fully enclosed buildings

¹⁴ and similar profit or non-profit cultural facilities

¹⁵ including veterinary (if animals are kept within soundproof buildings), laboratories, and similar uses, excluding blood donor stations

¹⁶ but not hiring halls

¹⁷ and other institutions of higher learning

¹⁸ having a minimum lot area greater than 1 acre

¹⁹ including community service facilities

Enterprise Zone (UEZ) programs in the different Economic Development Priority areas. Based on the analysis, the Georgia Avenue/Ralph David Abernathy Boulevard corridor has the potential to become a Tax Allocation District. Specifically in Summerhill, the area along Georgia Avenue and Hank Aaron Drive including Turner Field is a high priority candidate area. The ADA’s analysis indicates potential development of 390,000 sq.ft. of residential, 50,000 sq.ft. of retail and 100,000 sq.ft. of office by 2010 in this area. For details of the ADA study and analysis, please refer to the report of ‘*REVITALIZATION INCENTIVES FOR UNDERSERVED AREAS*. The other programs/tools can be applied or used based on the cases.

Table 6 City of Atlanta & Atlanta Development Authority Controlled Programs/Tools

Program		Program Summary
Financing	TAD (ADA)	A Tax Allocation District (TAD) is established to publicly finance certain redevelopment activities in underdeveloped areas. Redevelopment costs are financed through the pledge of future incremental increases in property taxes generated by the resulting new development.
	URFA (ADA)	The Urban Residential Finance Authority (URFA) is empowered to issue tax exempt bonds to make below market interest rate mortgage loans to developers for rental housing, provided certain requirements are met to ensure that the rental units benefit low and moderate income renters.
	501(c)3 Bonds (ADA)	ADA can issue taxable and tax-exempt industrial revenue bonds to 501(c)3 organizations in the City of Atlanta.
	Small Business Loans (ADA)	The Business Improvement Loan Fund (BILF) provides loans up to \$50,000 to encourage the revitalization of targeted business districts in the City of Atlanta and to support commercial and industrial development in other eligible areas.
		The Phoenix Fund assists small and medium-sized businesses in the City of Atlanta with affordable loans of up to \$100,000 for the construction or renovation of privately-owned commercial buildings; equipment purchases needed to operate a business, and, in some cases, working capital.
ADA facilitates Small Business Administration (SBA) 504 Debenture financing to small, minority and female-owned businesses to expand and/or relocate in the city.		
Tax Abatements	Urban Enterprise Zone (Atlanta)	The City of Atlanta’s Urban Enterprise Zone (UEZ) program encourages private development and redevelopment in areas of the City or on sites which otherwise would unlikely be developed due to the existence of certain characteristics of the area or site. The UEZ provides property tax abatement for a 10-year period.

Table 7 Programs/Tools Summary (City, County, State, Federal, and Renewal Community)

<u>ECONOMIC DEVELOPMENT TOOLS</u>		Developers	Existing Property Owners	New Businesses	Existing Businesses	Business Tenants

CDP-06-24

A RESOLUTION:

BY COMMUNITY DEVELOPMENT/HUMAN RESOURCES COMMITTEE

A RESOLUTION AMENDING THE 1993 SUMMERHILL URBAN REDEVELOPMENT PLAN TO INCORPORATE THE LAND USE, ZONING, AND DEVELOPMENT OPPORTUNITIES UPDATE; TO RESCIND CONFLICTING RESOLUTIONS; AND FOR OTHER PURPOSES.

WHEREAS, in October, 1993, the City of Atlanta has approved the Summerhill Urban Redevelopment Plan in accordance with the State Redevelopment Powers Law; and

WHEREAS, based on the mayor's economic development plan on the six Economic Development Priority areas, an update for land use, zoning, and development opportunities is deemed necessary for the redevelopment plan; and

WHEREAS, under the direction of the Bureau of Planning an update of the redevelopment plan in terms of land use, zoning, and development opportunities has been developed based upon the direct input of the residents, property/business owners and other stakeholders in the Summerhill Urban Redevelopment Plan area; and

WHEREAS, the City Council wishes to adopt said update as a guide for future development.

NOW, THEREFORE THE CITY COUNCIL OF THE CITY OF ATLANTA, GEORGIA, HEREBY RESOLVES:

SECTION1: That the Summerhill Urban Redevelopment Plan Update, a copy of which is attached hereto as Exhibit A, is hereby adopted by the City Council of the City of Atlanta, Georgia.

SECTION2: That all resolutions and parts of resolutions in conflict herewith are hereby repealed to the extent of the conflict.

A true copy,

Deputy Clerk

ADOPTED by the Council
APPROVED by the Mayor

SUMMERHILL REDEVELOPMENT PLAN UPDATE

Land Use, Zoning, and Development Opportunities

Summerhill is one of the four Stadium Neighborhoods (including Summerhill, Peoplestown, Mechanicsvill, and Pittsburgh) Economic Development Priority (EDP) area identified through the Mayor's New Century Economic Development Plan developed in 2004-2005.

This Study is to update the land use, zoning plans and define development opportunities for available sites in the neighborhood based on the 1993 Summerhill Redevelopment Plan. Available economic development tools/ programs are encouraged to be considered for future implementation.

Recommendations

Zoning:

- Use Quality of Life zoning when applicable to encourage good architectural design and pedestrian oriented environment. (MRC-1-C, MRC-3-C, and MR-3-C are recommended, C represent conditions)
- Condition on building height, density, and uses, etc. to guide and control new development and make sure it addresses the Summerhill neighborhood characters

- Add condition to existing R-4B zoning to avoid narrow houses and ensure minimum design standards.

Land Use:

- Land uses changed when zoning change proposed.
- Change a few existing land uses that are not consistent with existing zoning on the ground.

Economic Development Programs/Tools

- For development at a critical mass
 - Tax Allocation District
 - Urban Enterprise Zone, Opportunity Zone
 - Urban Residential Finance Authority
- Entrepreneurs and small businesses
 - Atlanta Renewal Community

AN ORDINANCE
BY: COMMUNITY DEVELOPMENT AND
HUMAN RESOURCES COMMITTEE

CDP-06-25

AN ORDINANCE TO AMEND THE LAND USE ELEMENT OF THE
CITY OF ATLANTA'S 2004-2019 COMPREHENSIVE DEVELOPMENT PLAN (CDP)
SO AS TO REDESIGNATE PROPERTIES LOCATED IN THE
SUMMERHILL NEIGHBORHOOD, FROM *VARIOUS LAND USE DESIGNATIONS TO*
VARIOUS LAND USE DESIGNATIONS; AND FOR OTHER PURPOSES.

NPU V

COUNCIL DISTRICTS 1

THE CITY COUNCIL OF THE CITY OF ATLANTA, GEORGIA HEREBY ORDAINS:

SECTION 1. That the 2004-2019 Comprehensive Development Plan (CDP) of the City of Atlanta, Georgia is hereby amended by changing the Land Use Element of said Plan so as to re-designate property that is located in the **Summerhill Neighborhood**, from *various land use designations to various land use designations*, and for other purposes.

All that tract or parcels of land are lying and being in Land Lots 53, 54, 75, and 76 of the 14th District of Fulton County, Georgia. Said properties are more specifically shown on the attached map, 'Exhibit A' which is hereby made part of this ordinance.

SECTION 2. That all ordinances or parts of ordinances that are in conflict with this ordinance are hereby repealed.

AN AMENDED ORDINANCE BY:
ZONING COMMITTEE

Z-06-24

AN ORDINANCE TO REZONE CERTAIN PROPERTIES WITHIN THE SUMMERHILL NEIGHBORHOOD FROM THE R-4B (SINGLE-FAMILY RESIDENTIAL), C-1 (COMMUNITY BUSINESS), C-1-C (COMMUNITY BUSINESS-CONDITIONAL), C-3 (COMMERCIAL RESIDENTIAL), AND C-3-C (COMMERCIAL RESIDENTIAL – CONDITIONAL) TO THE R-4B-C (SINGLE-FAMILY RESIDENTIAL-CONDITIONAL), MR-3-C (MULTI-FAMILY RESIDENTIAL-CONDITIONAL), MRC-1-C (MIXED RESIDENTIAL COMMERCIAL-CONDITIONAL), AND MRC-3-C (MIXED RESIDENTIAL COMMERCIAL-CONDITIONAL) AND FOR OTHER PURPOSES.

NPU-V

COUNCIL DISTRICT 1

WHEREAS, the recommendations from the Summerhill Urban Redevelopment Plan land use and zoning update should be implemented; and

WHEREAS, the Summerhill Neighborhood has been working with the Bureau of Planning on the update and supports the City to rezone Summerhill neighborhood to implement the recommendations from the Summerhill Redevelopment Plan land use and zoning update; and

WHEREAS, a diversified urban environment where people can live, work, meet and recreate should be created; and

WHEREAS, a compatible mixture of residential, commercial, and cultural and recreational uses should be provided; and

WHEREAS, the visual aesthetics of the neighborhood and City streets should be improved; and

WHEREAS, the official zoning maps should be amended to include the properties in the Summerhill Neighborhood as shown on "Attachment 'A'" and "Attachment 'B'".

NOW, THEREFORE, BE IT ORDAINED BY THE COUNCIL OF THE CITY OF ATLANTA, GEORGIA, as follows:

SECTION 1: That the 1982 City of Atlanta Zoning Ordinance be amended and the official zoning maps established in connection therewith be changed to include the

properties located in the Summerhill Neighborhood with the designations as shown on "Attachment 'A'" and "Attachment 'B'" attached.

SECTION 2: This amendment is approved under the provisions of Section 16-02.003 of the City of Atlanta Zoning Ordinance entitled "Conditional Development" as identified with the use of the suffix "C" after the district designation. The Director of the Bureau of Buildings shall issue building permits for the development of the properties with said "Conditional Development" zoning district designation only in compliance with the following conditions:

- 1) The following conditions apply to all the MRC-3-C districts in the Summerhill Neighborhood:
 - a. The following uses shall require a Special Use Permit:
 - i. Commercial greenhouses.
 - ii. Childcare and kindergardens
 - iii. Digital industry switchboards, power generators and other relay equipment and rooms housing such equipment when located on subterranean levels or the second floor above sidewalk level and higher, or on ground floors provided that retail, office, institutional or residential uses are provided for a minimum depth of 20 feet from any building façade along the public sidewalk.
 - iv. Mortuary and funeral homes
 - v. Nursing homes, assisted living facilities, personal care homes and rehabilitation centers.
 - vi. Security storage centers less than 7,500 square feet in floor area
 - b. The following uses are prohibited:
 - i. Automobile service stations, car washes.
 - ii. Dormitories
 - iii. Dry-cleaning plants
 - iv. Group homes
 - v. New and used car sales, including motorized vehicles such as mopeds and motorcycles
 - vi. Park-for-hire surface parking lots
 - vii. Repair garages, paint and body shops
 - viii. Rooming houses
 - ix. Security storage centers greater than 7,500 square feet in floor area
 - x. Single room occupancy residences
 - xi. Truck stops.
 - c. Size of individual retail, restaurant, repair or commercial recreation establishments, and clubs and lodges, shall not exceed 15,000 square feet along Georgia Ave. and Hank Aaron Dr., and 10,000 square feet elsewhere.
 - d. Building façade materials shall consist of the following::
 - i. Single and Two-family: all exterior facades shall be brick, stone, horizontal wood clapboard siding, or horizontal hardiplank (cementious siding).
 - ii. Multi-family and non-residential:
All exterior facades adjacent to or visible from a public street shall be brick, stone, cast stone, true stucco, split-faced concrete, or split-faced brick. Exterior facades not adjacent to a public street may also use concrete masonry units.

2) For the properties between Fraser Street and Martin Street in the MRC-3-C designation:

- a. Except as provided in Part 1) b, park-for-hire parking decks are prohibited
- b. For non-residential uses: Floor Area Ratio (FAR) shall not exceed one (1) times the net lot area.
- c. For residential uses: Floor Area Ratio (FAR) shall not exceed two (2) times the net lot area or gross land area.
- d. FAR bonuses are not permitted.
- e. Maximum Building Height
 - i. Where the MRC-3-C district adjoins the MRC-1-C district to the north, any structures located less than 30 feet from the buildable area adjacent to the MRC-1-C district shall be less than 40 feet in height.
 - ii. Transitional height plane applies for structures located at 93, 97, 105 Georgia Ave., and 670 Terry Street, which are adjacent to the R-4B district to the south.
 - iii. Any structure adjacent to Bass Street and Terry Street (Only applies to the portion of Terry street delineating MRC-3-C district and R-4B district) which is less than 30 feet from the buildable area adjacent to the required sidewalk along either Bass Street or Terry Street shall be less than 40 feet in height. The height of any building or portion of a building beyond 30 feet may extend up to maximum building height of 76 feet.
 - iv. Except as provided in part (i), (ii), and (ii) above, the maximum building height shall be 76 feet

3) For properties south of Georgia Avenue between Hank Aaron Boulevard and Fraser Street in the MRC-3-C designation:

- a. Except as provided in Part 1) b, park-for-hire parking decks are prohibited
- b. Maximum permitted floor areas without bonuses:
 - i. For non-residential uses: Floor Area Ratio (FAR) shall not exceed one and one-half (1.5) times the net lot area.
 - ii. For residential uses: Floor Area Ratio (FAR) shall not exceed one (3) times the net lot area or gross land area.
 - iii. Maximum floor area with bonuses: Under no circumstances shall the floor area of any development with bonuses exceed an amount equal to five (5) times gross lot area.
 1. Affordable Housing Bonus: Developments containing residential uses shall be permitted only a floor area bonus of one-half (0.5) times net lot area or gross land area, with the provision that the minimum percentage of affordable units provided shall meet the MRC district requirements. In addition to the minimum percentage requirements for the number of units, the size of each affordable unit shall not be smaller than the smallest unit for each unit type in the overall development.
 2. The Open Space Streets bonus, the Ground-floor Commercial bonus, and the Civic bonus shall not be permitted.
- c. Maximum Building Height
 - i. Any structure adjacent to Georgia Avenue which is less than 30 feet from the buildable area adjacent to the required sidewalk along Georgia Avenue shall be less than 76 feet in height.
 - ii. Any structure adjacent to Fraser Street which is less than 30 feet from the buildable area adjacent to the required sidewalk along Fraser Street shall be less than 40 feet in height. The height of any building or portion of a building beyond 30 feet and less than 60 feet shall be less than 76 feet. The height of any building or portion of a building beyond 60 feet may extend up to maximum building height of 104 feet.

- iii. Except as provided in part (i), and (ii) above, the maximum building height shall be 104 feet.

4) For properties in the MRC-1-C designation:

- a. The following uses shall require a Special Use Permit:
 - i. Commercial greenhouses.
 - ii. Childcare and kindergardens
 - iii. Digital industry switchboards, power generators and other relay equipment and rooms housing such equipment when located on subterranean levels or the second floor above sidewalk level and higher, or on ground floors provided that retail, office, institutional or residential uses are provided for a minimum depth of 20 feet from any building façade along the public sidewalk.
 - iv. Mortuary and funeral homes
 - v. Nursing homes, assisted living facilities, personal care homes and rehabilitation centers.
 - vi. Security storage centers less than 7,500 square feet in floor area
- b. The following uses are prohibited:
 - i. Automobile service stations, car washes.
 - ii. Domitaries
 - iii. Dry-cleaning plants
 - iv. Group homes
 - v. New and used car sales, including motorized vehicles such as mopeds and motorcycles
 - vi. Park-for-hire surface parking lots
 - vii. Park-for-hire parking decks
 - viii. Repair garages, paint and body shops
 - ix. Rooming houses
 - x. Security storage centers greater than 7,500 square feet in floor area
 - xi. Single room occupancy residences
 - xii. Truck stops.
- c. Size of individual retail, restaurant, repair or commercial recreation establishments, and clubs and lodges, shall not exceed 15,000 square feet along Hank Aaron Dr., and 10,000 square feet elsewhere.
- d. Building façade materials shall consist of the following:
 - i. Single and Two-family: all exterior facades shall be brick, stone, horizontal wood clapboard siding, or horizontal hardiplank (cementitious siding).
 - ii. Multi-family and non-residential:
All exterior facades adjacent to or visible from a public street shall be brick, stone, cast stone, true stucco, split-faced concrete, or split-faced brick. Exterior facades not adjacent to a public street may also use concrete masonry units
- e. The maximum building height shall be 52 feet except for where height is limited based on distance from certain zoning districts.

5) For properties in the MR-3-C designation:

Maximum Building Height: Any structure adjacent to either Fraser or Ormond Street which is less than 30 feet from the buildable area adjacent to the required sidewalk along either Fraser or Ormond Street shall be less than 40 feet in height. The height of any building or portion of a building beyond 30 feet may extend up to maximum building height of 52 feet.

6) For properties in the R-4B-C designation in Summerhill Neighborhood:

- a. The minimum width of a house shall be 20 feet as measured from the exterior of the side walls. The side walls shall be the walls that are perpendicular to and attached to the wall in which the primary entrance is located.
- b. The primary pedestrian entrance of the principal structure shall face and be visible from a public or private street.
- c. Garages attached to the principal structure shall be recessed a minimum of 5 feet from the street-facing facade. Such garages shall not comprise more than 50% of the width of the ground floor of the building's street-facing frontage.
- d. Detached accessory structures, such as carriage houses, smoke houses, tenant and alley houses, private garages, carports, and mechanical equipment shall be located to the side and/or rear of the principal structure within the buildable area of the lot and shall be set back of a minimum of 15 feet from the street-facing facade of the principal structure. Mechanical equipment shall be screened with plant or fence materials from view of any public street.
- e. No parking pad is allowed between the front of the principal structure and the public street.
- f. When no attached or detached garages are built, solid paved driveway shall extend at least 20 feet beyond the street-facing front facade and have a maximum width of 10 feet in the front yard; if a driveway is built less than 20 feet beyond the front facade, it shall be ribbon driveway that consists of two paved strips with a grass strip between them. The paved strips shall be no more than 30 inches wide, and the grass strip shall be at least 4 feet wide. No portion of the ribbon driveway pavement shall be farther than 10 feet from one of the side property lines.
- g. Any facades that face a public or private street shall consist of fenestration that is no less than 20 percent and no greater than 40 percent of the total surface wall area. Windows may be individual or grouped. No individual window unit shall exceed 28 square feet. Within each individual window unit, no individual window sash, either fixed or operable, shall exceed 16 square feet.
- h. Roof of the principal structure shall be gabled and/or hipped. Roof pitch shall be a minimum of 6 in 12. Roof pitch above porches shall not be restricted.
- i. Any portion of a chimney that is located on any facade that faces a public or private street shall originate at grade
- j. Foundations:
 - i. The first floor of the principal structure shall be on foundations and elevated above the grade between one and one half (1.5) and four (4) feet, unless existing topography is greater, as measured at the front facade of the structure. Slab-on-grade construction is not permitted. All front steps shall have closed risers and closed ends, and shall not use wood material. Access ramps shall be permitted.
 - ii. Foundations shall constitute a distinct building design element and shall contrast with the front facade material when hardiplank or horizontal wood sidings are used. Brick, stone, or true stucco shall be permitted. Standard, unfinished concrete block and stacked stone is prohibited.

Section 3: That all ordinances or parts of ordinances in conflict with this ordinance shall be repealed.
