JOIN THE BEST TEAM FOR THE JOB

PUBLIC ADDRESS:

This project will replace MARTA's current PA communications system. The new system will be installed in all 38 of MARTA's rail/transit passenger stations. New installation includes the replacement of existing speakers and cable as well as the installation of additional speakers, conduit and cable on station platforms, concourses and busways.

ELECTRONIC SIGNAGE:

This project will replace MARTA's current stand-alone, digital electronic signs with an integrated, real-time digital audio/visual passenger communication system. The new system will be installed in all 38 of MARTA's rail/transit passenger stations. New installation includes the removal of 158 existing LED and LCD displays and the installation of 326 new digital signs, conduit, cable and fiber on station entrances, platforms, concourses and busways.

CONSTRUCTION STARTING SOON!
