

Affordable Housing Impact Statement

Z-18-67

Requirements

Per the requirements of the City of Atlanta, Georgia Code of Ordinances, Chapter 54, Article I, Section 54-2, Affordable Housing Impact Statements shall include a quantitative or numeric section that shall provide numeric estimates of impacts, quantifying numbers of units impacted at certain levels of Area Median Income (AMI) over the 30-year period following the enactment of the legislation; and a narrative section to provide an explanation of the analyses that led to the estimates.

Narrative Section

The ordinance would zone the land known as Lochland Court/Willow Place to the R-4A zoning district following its annexation into the City of Atlanta. The ordinance is estimated to have no impact on the affordability of the City's housing stock because no housing units would be added, preserved or decreased with this Land Use amendment. The zoning ordinance would simply provide a zoning for land that did not previously have one.

Quantitative/Numeric Section

This legislation, if enacted, is estimated to have a projected impact upon the affordable housing stock of the City of Atlanta over the 30-year period following the enactment of the legislation by:

Adding _0_, preserving _0_, or decreasing _0_ units affordable at 30 percent or below of the Area Median Income (AMI); and

Adding _0_, preserving _0_, or decreasing _0_ units affordable between 30.01 and 50 percent of AMI; and

Adding _0_, preserving _0_, or decreasing _0_ units affordable between 50.01 and 80 percent of AMI; and

Adding _0_, preserving _0_, or decreasing _0_ units affordable above 80 percent of AMI.

Disclaimer Statement

Please be mindful that any analysis of the legislation is based on a summary of the information provided by the Applicant who requested the rezoning/land use amendment and in some cases, on public real estate data obtained from the Internet. In the case of a personal paper introduced by a Councilmember, any analysis is based on a summary of information obtained from the Department of City Planning staff and the Internet. The analysis does not extend through the next 30 years as

required by the City of Atlanta, Georgia Code of Ordinances, Chapter 54, Article I, Section 54-2 because it is impossible to estimate the affordability of market-rate housing beyond the initial lease-up or sale of the units. In addition, any changes to a zoning/Land Use will apply to any future developments, not just the initial development proposed by the current Applicant. Therefore, the Office of Housing and Community Development cannot estimate any future development that may take place on parcel(s) not within this Applicant's scope of work.

With respect to the accuracy of any and all initial estimates of affordability, the estimates that are provided for initial developments are largely dependent on the honesty of Applicants and their willingness to provide the most accurate available data. Data on potential rent, sales price, units to be constructed, the number of bedrooms per unit, etc. are subject to change as developers assess market conditions prior to and throughout construction. Therefore, this data should not be used as a basis to form any quantitative conclusions. For data that may better reflect Applicant's final building plans, please refer to the issued building permit.
