

# Tree Protection Ordinance Feedback Worksheet

June 2019

Thank you for attending our first session on Atlanta's Tree Protection Ordinance. We are excited to hear your input. Please drop this feedback sheet off before you leave or send over any comments to: [urbanecology@peqatl.com](mailto:urbanecology@peqatl.com) or [eajohnson@atlantaga.gov](mailto:eajohnson@atlantaga.gov).

## INTENT AND PURPOSE

I like this                       Not so much

Missing and/or other to consider:

## TREE ASSESSMENT

A ranking system for trees based on:

Size Species Condition Location/Contribution Tree Groupings	Other variables to include:
---	-----------------------------

Ranking Examples	Like	Dislike	With some tweaking
High, Medium, Low, No value (i.e., dying or invasive)			
Only defining High and Medium values			
Only defining Specimen/Heritage (Excellent)			
Points/Percentage: Protection compliance based on total point value or percentage of individual tree(s).			
Other categories or general comments on how you would like to see trees evaluated:			

## DEVELOPMENT STANDARDS

- Protect & preserve all high value trees at all possible times
- Protect & preserve a percentage of tree value on site
- Meet a minimum tree density through preservation and replanting
- I'm unsure

Missing and/or other:

## DEVELOPMENT STANDARDS

Encourage better site design and lower impact construction techniques

Minimized site grading Foundation walls & piers Boring vs open cut for utilities Retaining walls Smaller building footprint	Other techniques to consider:
---	-------------------------------

**DEVELOPMENT STANDARDS**

Regulations could reference or include:

	Like	Dislike	Other to include or consider:
Technical guides:			
Credits			
Exemptions			
Incentives			
Process			
City Assistance			
Penalties			

**PROTECTION ZONES**

- Yes, implement protection zones and associated standards
- No, all areas of the city should have the same protection and standards
- Not sure, I have questions or want more clarification

Comments:

**DUE DILIGENCE**

- I like this
- Not so much

Comments:

**NON-CONSTRUCTION RELATED**

**Proposed:** Ability to remove one (1) non-high value tree per year no matter the condition

- I like this
- Uncomfortable with the number allowed or timeframe. I like \_\_\_\_\_ & \_\_\_\_\_  
# of trees over this time period
- Unsure, I have questions or want more clarification

Comments:

Other provisions:

\_\_\_\_\_  
Print Name

\_\_\_\_\_  
Neighborhood

Email: \_\_\_\_\_
